

## *Nothing about us without us towards leaving no one behind!*

### ***Our aim***

The Convention on the Rights of Persons with Disabilities (CRPD) sets obligations to ensure the effective realization of **all human rights for all persons with disabilities**. However, its implications are often not equally addressed for the diversity of persons with disabilities.

The '**Nothing about us without us**' motto - which is reflected throughout the CRPD and central to the Bridge CRPD-SDGs Training Initiative - demands that persons with disabilities and their representative organizations are fully involved in decisions that concern them at **all levels**.

The need for well-resourced and well-informed OPDs (Organizations of Persons with Disabilities) is therefore rising.

The main aim of the Bridge CRPD-SDGs Training Initiative is to invest in global and regional OPDs to support capacity building of their national members to advocate for the achievement of the **Sustainable Development Goals (SDGs) for all persons with disabilities** in line with the **CRPD**.

### ***Our history***

In 2015, the International Disability Alliance (IDA) and the International Disability and Development Consortium (IDDC) developed the Bridge CRPD-SDGs Training Initiative.

It is a unique inclusive capacity development initiative designed to respond to the growing demand to equip persons with disabilities and OPDs to capitalize the 2030 Agenda. It also supports them to engage adequately with governments and other actors to shape policies & programs to be compliant with the CRPD.

### ***Our principles***

- By, for and with persons with disabilities
- Working cross-disability, with attention to intersectionality and underrepresented groups
- Inclusive, enabling environment & methodology
- Valuing participants' expertise
- Collaborative quality assurance
- Peer accountability and learning
- Not for profit and open source material

## ***Differentiated trajectories***

The Initiative proposes a trajectory for trainees who wish to go further that may comprise:

1. **Training and advisory opportunities**
2. **Practical exposure** to UN mechanisms
3. **A Training of Trainers**
4. **Additional modules** as co-facilitators or participants in other cycles
5. **Fellowship** opportunities
6. **Mentoring** - advocacy, advisory, peer learning at local, national, regional and global levels

## ***Training of trainers***

A critical number of activists with disabilities, from different regions, is also prepared to respond to the increased demand for highly qualified trainers. They are equipped with skills to facilitate CRPD and SDGs related trainings, including Bridge modules.

## ***Quality criteria and development***

Implementing partners work through collaborative approaches to attain optimum quality and learning outcomes. This includes the establishment of task and facilitation teams, under a Partnership Protocol, validated by the Steering Committee.

## ***Curriculum***

**Module 1** focuses on securing an in-depth understanding of the CRPD and analysing development from a CRPD perspective,

**Module 2** further develops capacities to take action through different key policy areas including legal harmonisation, budgeting, data, to the use of UN monitoring mechanisms. The purpose is to create evidence for policy change.

A **high-level policy exchange** platform is also offered.

**Through assignments** - between both modules - participants:

- (1) work with peers at country level to analyse the human rights and development context in their country,
- (2) individually develop a draft policy brief analyzing a development issue, from a CRPD perspective.

***“Bridge CRPD-SDGs Training Initiative is the most advanced example we know of inclusive training on the CRPD respecting diversity through differentiated approaches to accommodate different learning styles.***

***Adequate attention to everyone leads to successful learning outcomes”.***
